The Concert Event of 2010!*

“Ricky Nelson Remembered”

Starring

Matthew and Gunnar Nelson

&

The Stone Canyon Band

Nearly 25 years ago we lost a national treasure to a plane crash. Today we pay tribute to one of the most cherished & beloved artists of all time. Through his sons and band, they bring his musical legacy to you.

The Ricky Nelson Legacy continues...

He was America's first TV heartthrob. The Nelson family achieved immortality with *“The Adventures of Ozzie & Harriet”*. Ricky Nelson emerged from the series popularity to establish himself as one of the most important rock artists and influential musicians of the 50s, 60s and 70s. For 30 years he immortalized himself as one of music's biggest icons while entertaining millions of people. **Rock and Roll Hall of Fame's Ricky Nelson** is the only artist in history to have a number one TV show, number one movie, and a number one song all in the same week. After selling 100 million singles as a founding father of Rockabilly and Rock'n'Roll, he is credited for reinventing himself and establishing the country rock style. Matthew and Gunnar are triple platinum recording artists in their own right. Their self-penned number 1 hit *“Love and Affection”* made the Nelsons the only family in history with 3 successive generations of #1 hit-makers.
